Dear Sirs

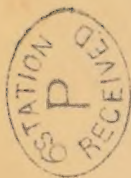

yours of Nov. last duly
 received but my collecting goes by
 fits and starts. In answer I will
 say I was working on the English
 pennis. half pennis & farthings. what
 can you furnish in sequence of dates
 of that series. I would also like
 some kind of a coin of Elizabeth
 of Eng. what is the cheapest you have
 in copper or small silver. How are
 bankers, doctors never are. Please tell
 me what a Continental Currency \$7.⁰⁰
 bill 1773-1776 is worth. I run across

many such things but people think
they all have a gold mine & don't
want to sell. You may send on
approval or tell me what you have
& price and I will be obliged.

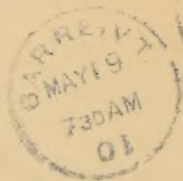

Yours truly
J. M. Jackson
